

LYRA PLUS

WC seat and cover for WC combi, Slowclose, duroplast, plastic hinges

TECHNICAL DRAWINGS

duroplastic seat
and cover for WC
combination

FEATURES

Tired of folding the seat and lid after use? Try the Lyra Plus seat with the Slowclose deceleration mechanism. You simply gently "lower" the seat, and it lands quietly and slowly on the toilet. In addition, the maintenance of the toilet is also simplified by the quick assembly and disassembly of the seat with the lid thanks to the "click" system. The Lyra plus seat with plastic handles is only suitable for WC combi toilets of the series of the same name. The seats are made of thermoset material, for which we provide a 5-year warranty.

Hinges material: **Plastic**

Quick release

Shape: **Round**

Suitable for: **Toilet**

COMPATIBLE WITH

WC combi, oblique outlet
