LIBERTYLINE

Homes suitable for disabled people should be a cause of rejoicing as they allow elderly and disabled people to live an independent life within their own four walls. The reality is somewhat different: conventional products for the disabled always seem to have the look of a nursing home or hospital. By contrast, libertyline puts elegance, convenience and comfort first - and a perfected concept that helps simplify life. Thanks to a consistent design, it can be complimented by other LAUFEN products to create a stylish integrated bathroom.
